Chennai hair factory hair is amazing! I have been using their hair personally and for my clients for the past year now and it's amazing! I love it and my clients love it. The hair is soft and last for a long time and easy to color. It is truly raw hair.

Best hair hands down & great customer service. Mr. Shiva is amazing and anyone that says this hair is bad is either a competitor or liar. I have ordered from many places and never received this top quality so I recommend everyone who is looking for legit Indian hair to contact this company.
